reveals for the first time how official policies resulted in millions of innocent civilians killed and wounded. Of in shocking detail he lays out the workings of a military machine that made crimes in almost every major American combat unit all but inevitable. Kill anything that moves takes us from archives filled with Washington's long suppressed war crime investigations to the rural Vietnamese hamlets that bore the brunt of the war from boot camps where young American soldiers learned to hate all Vietnamese to bloodthirsty campaigns like Operation Speedy Express in which a general obsessed with body counts led soldiers to commit what one participant called a My Lai a month. Thousands of Vietnam books later kill anything that moves devastating and definitive finally brings us face to face with the truth of a war that haunts Americans to this day. This literal survival guide for new pilots identifies the killing zone the 40 250 flight hours during which unseasoned aviators are likely to commit lethal mistakes presents the statistics of how many pilots will die in the zone within a year calls attention to the eight top pilot killers such as VFR into IFR takeoff and climb and maps strategies for life avoiding diverting correcting and managing the dangers includes a pilot personality self assessment exercise that identifies pilot types and how each type can best react to survive the killing zone. Killing zone is a story of exceptional endurance told with grim humor and great Other psychological insight into the minds of those whose lives depend on killing others this is Harry McCallion's remarkable account of life on the edge the best resource a pilot can have to understand how to fly in all types of weather how do you improve on the best guide for pilots to learn how to fly in all kinds of weather the answer is the fifth edition of Weather Flying regarded as the bible of weather flying this aviation classic not only continues to make complex weather concepts understandable for even the least experienced of flyers but has now been updated to cover new advances in technology at the same time this respected text still retains many of its original insights from over four decades of publication provided by renowned weather flying veteran Robert N. Buck in a straightforward style. New author Robert O. Buck son of the book's original author delves Burnt into how computers personal electronic devices electronic flight instrument systems and other technologies are changing the way general aviation pilots fly weather he addresses the philosophy and discipline required to use these systems what they are really telling us and their task as supplement to good flying sense the updated fifth edition also discusses how to handle changes in FSS weather briefing including a look at new weather information products and airborne datalink weather information as they affect weather flying this new edition features discussions of weather information what it is how to get it and how to use it explanations of various weather phenomena and how they affect a flight updates on the new GPS and smart

of the role that deadly force plays in american police work this brilliantly written book tells how novice officers are trained to think about and use the Other power they have over life and death explains how cops live with the awesome responsibility that comes from the barrels of their guns reports how officers often hold their fire when they clearly could have shot presents hair raising accounts of what it s like to be involved in shoot outs and details how shooting someone affects officers who pull the trigger from academy training to post shooting reactions this book tells the compelling story of the role that extreme violence plays in the lives of america s cops the killing zone the united states wages cold war in latin america second edition is a comprehensive yet concise analysis of u s policies in latin america during the cold war author stephen g rabe a leading authority in the field argues that the sense of joy and accomplishment that accompanied the end of the cold war the liberation of eastern europe and the collapse of the soviet union must be tempered by the realization that latin americans paid a ghastly price during the cold war dictatorship authoritarianism the methodical abuse of human rights and campaigns of state terrorism characterized life in latin america between 1945 and 1989 countries such as argentina brazil chile el salvador and guatemala endured appalling levels of political violence the u s repeatedly intervened in the internal affairs of latin american nations in the name of anticommunism destabilizing constitutional governments and aiding and abetting those who murdered and tortured rabe supplements his strong provocative historical narrative with stories about the fates of ordinary latin americans an Burnt extensive chronology a series of evocative photographs and an annotated bibliography danger in the comfort zone examines the phenomenon of the entitlement mentality in the american workforce people s preoccupation with their rewards rather than their responsibilities bardwick describes three basic mindsets and shows the effect of each on individuals and their organizations entitlement people feel entitled to rewards and lethargic about having to earn them motivation and job satisfaction are low fear people are paralyzed the threat of layoffs makes them focus on protecting their jobs rather than doing them well earning people are energized by challenge they know their accomplishments will be noticed and rewarded in this paperback edition bardwick points out that although the fear element has undoubtedly grown in the last few years the entitlement attitude is still firmly entrenched at all levels she offers additional chapters with new specific And techniques for pulling people out of the quagmire of fear and complacency and igniting them with the energy of true earning an american general is captured in the middle east by terrorists who threaten to behead him within days one strange fact moments before he is rendered unconscious during the attack the general notices that his captors

Speak American English what's going on gunnery sgt Kyle Swanson a top marine sniper is vacationing on a yacht in the Mediterranean when he receives orders to mount a top secret mission. Life to rescue the general but as the marines prepare to land in the Syrian desert they fall victim to a terrible accident Swanson the only survivor then discovers they were also flying into an ambush how did the enemy have details of a mission known only to a few top American government officials Swanson takes off across the desert alone to find the captured general and realizes he is fighting a particularly ruthless and dangerous enemy American mercenaries working for a very high level group of U.S. officials with ties to the White House itself part of a clandestine conspiracy whose hidden goal is nothing less than total control of the American military their sworn enemy is the captured general whose fate now rests in Swanson's hands filled with the kind of action that author Jack Coughlin lived during his career as a marine sniper Kill Zone marks the debut of an extraordinary new series from the USA Today bestselling author of Joshua's Hammer the president of the United States has appointed Kirk McGarvey interim director of the CIA while his nomination winds its way through congressional hearings but what should have been the culmination of McGarvey's career has activated a twenty year old Russian plot sponsored by his former arch-enemy General Baranov now McGarvey is in the kill zone he finds himself part of a plot that does not know the cold war is over a plot that comes at McGarvey full throttle from the grave of an enemy McGarvey had buried decades before step by inexorable step the assassin a sleeper agent for all these years is awakened from a holding state of mind brainwashed by KGB doctors to pull the trigger the killer has unknowingly waited for a signal that has finally arrived and as the story races toward its breathtaking climax it's becoming clearer to McGarvey and his associates that the killer is someone within his inner circle a colleague or a friend somebody very close is there anyone McGarvey can trust when trust itself can kill him at the publisher's request this title is being sold without digital rights management software DRM applied this is not a book of techniques this is a book about what you need to know in order to make any technique work when a real bad guy is trying to kill you Ernest Emerson is an instructor author and lecturer he is a black belt hall of fame member owner of the Black Shamrock Combat Academy and one of the most sought after tactical instructors in the world one of his most popular lectures is titled surviving inside the kill zone he has often been asked the question when are you going to put this in a book that question is now answered in the brutal arena of life and death combat there are things that you can do and things you can't there are also things you should always do and there are things you should never do and the right things that you are able to do in combat are the ones that will enable you to survive a deadly attack Emerson

always starts this lecture with the question how many first responders are in this room there are always several police firemen or paramedics in the audience who raise their hands and then the lecture starts in this book you will learn the principles concepts strategies and tactics behind the training methods ernest emerson has been teaching to members of special operations units government agencies and counter terrorist units for over two decades the book breaks down the subject into seven related but distinct chapters that starts with education stressing the importance of learning strategies tactics weapons and methodologies of the bad guys emerson then follows with a further exploration and recommendation for choosing the right weapons how to judge a training system and how to identify what you really need to know and how to learn it emerson explains why half of what you know won't work in combat and only about half of what really works in combat is what you'll actually be able to do that only leaves about 25 combat effectiveness when you're up against someone who's trying to take your life this book gives you the tools that make that 25 and make it more effective and powerful than the other 75 left behind the book introduces you to the rules of combat the important role of goals and the right strategic objectives and how to apply them to both training and combat emerson provides valuable insight into the predator-prey relationship and how you can use it to work against a predator and effectively take you off their radar as a potential prey learn how to identify and break the sequence of events that leads to a surprise attack mr emerson also teaches the cia maxim of detect deny destroy and explains how a system that works so well for their officers can be used to work just as well for you knowing that the physical battle is only part of any aggressive or violent confrontation emerson devotes an entire chapter to the warrior mindset and also the importance of the will in developing the absolute conviction that you will never quit and never ever give up using the same techniques as taught to u.s. navy seals there is also very valuable information on developing the mental trigger material that until now has never been covered in any other civilian source and you will learn how functional conditioning and strength play a vital role in your ability to fight and prevail against the attacker combat strength conditioning is explained in terms that allow you to reevaluate your training regimen and fine-tune it for optimum combat performance it was mentioned that at the beginning of his lecture surviving inside the kill zone he asks how many first responders are in the room emerson asks the same question at the end of the lecture this time every hand in the room goes up read this book and get ready to raise your hand semi-epic one of the best pieces ever written by gurkha poets an epic with a single theme that narrates the sense of excitement before enlisting in the army then moving ahead to the war front leaving behind

hearth and home in a distant land being wounded or maimed or killed then drawing a history of this then the sense of futility and anger and then the sense of consolation solace and resignation from simple humble sensation to a state Other of spiritual bliss critics have compared this poet to the great war poets such as isaac rosenberg robert graves rupert brook herbert read siegfried sassoon alan seeger and their poetry
