assistant professor gdc english solved papers includes a section called program and plans which describes the center s activities for the current fiscal year and the projected activities for the succeeding fiscal year how can countries verify compliance with the comprehensive nuclear test ban treaty ctbt and detect and deter violations it is in their interest to increase their verification readiness because the assessment of compliance with the treaty rests with states parties to the ctbt the treaty provides countries with two verification elements an international system of monitoring stations and an on site inspection regime the monitoring system can detect nuclear explosions underground in the atmosphere and under water this book provides incentives to nations around the world on how they can organize their efforts to verify compliance with the ctbt and how they can collaborate with other countries perhaps on a regional basis to monitor areas of concern such focused efforts can improve their detection and deterrence capabilities through precision monitoring the book addresses the ctbt verification from the perspective of countries it shows how they can create the essential tools for the assessment of the large amounts of data available from the verification regime and other sources including observations from satellites and thousands of stations outside of the treaty regime countries can also use current scientific and technological developments to assist them in verifying compliance with the treaty the book offers political and scientific analysis on the evolution of the treaty over the years the book is intended for professionals in the political diplomatic scientific and military fields who deal with international security non proliferation and arms control it is also intended for non governmental organizations and journalists seeking a better understanding of the nuclear test ban issue and how states can verify compliance with the treaty
